VIP RUBBER & PLASTIC COMPANY ANNOUNCES 2,500 DAYS WITHOUT A LOST-TIME ACCIDENT

La Habra, Ca – VIP Rubber & Plastic Company (Vip) just announced a landmark milestone of 2,500 days without a lost-time accident.

Ensuring workplace safety has been a hot issue in the manufacturing industry since the turn of the century. The Occupational Safety and Health Administration (OSHA) has stated their mission is to "assure safe and healthful working conditions for working men and women by setting and enforcing standards and by providing training, outreach, education and assistance."

"Vip carefully complies with all OSHA regulations and implements the necessary safety programs including safety meetings," says Karina Cabrera, Human Resources Manager at Vip. "We also have quarterly and annual safety incentives to help motivate employees to maintain safety in the workplace."

The record of 2,500 days without a lost-time accident is a strong accomplishment in the manufacturing industry, equaling almost seven years of safety. "We care deeply about our employees and their safety," says Cindy LeClair, Vice President of Marketing at Vip. "As a family-owned company, many of our employees have been with us for decades and have become family themselves".

Ms. LeClair continued on to explain how the record of safety is expected to continue by listing the actions taken by the company, some of which include:

- Safety training on fire extinguisher usage and emergency evacuations
- Forklift operators trained on-site and certified before operating equipment/vehicles
- New employee orientation covering work related injury reporting, illness and injury prevention programs, hazard communication, personal safety equipment, and lock-out/tag-out systems
- Department specific safety training regularly

VIP plans to continue efforts of maintaining a safe workplace and looks forward to continuing this safety record.
