## **VIP RUBBER AND PLASTIC COMPANY APPROVED AS SOURCE ON BMS1-57 SPECIFICATION**

La Habra, California - Vip Rubber and Plastic Company (Vip) today announced that it has received approval as a supplier for the Boeing material specification BMS1-57, Revision M. The Boeing Company approves suppliers only after they have met all of the requirements set forth within the scope of their guidelines.

“Being qualified to Boeing Aircraft’s BMS1-57 qualified products list is the culmination of over two years of effort by the Vip team,” said President Howard Vipperman. “I am very proud of everyone and the efforts they put into this accomplishment.” He continued on to say “We are optimistic about the future and look forward to working with Boeing on additional qualifications. We will continue to produce quality, American-made products that are the Vip standard.”

Vip Rubber and Plastic Company is a custom manufacturer of molded rubber and plastic, extruded rubber and plastic, tubing and calender sheeting. Vip, an AS 9100 and ISO 9001 certified company, began manufacturing in 1961 and fabricates all American-made products in their La Habra, California facility.
